

**November
31, 2015**

The Camdenton 4-H LASER 3284 robotics team competed at the Cow Town Throw Dow down event held in Lee's Summit this past weekend. The team toured the Harley Davidson plant Friday afternoon prior to vying with 48 other **FIRST®** FRC teams from five states for the championship.

LASER competed well implementing a new robot strategy and was the 2nd overall pick by team 525 from Iowa and was also joined by teams 5006 from Arkansas & 3928 from Iowa. The alliance proved formidable defeating the #1 alliance in the finals. This is LASER's second CTTD championship in the past three years.

A special thank you to Team SCREAM 4522 for sharing their can robbers with us... **COOPERTITION®** at its best!
