***FIRST* Robotics build season kicks off with help of mentors**

Pictured along with students is mentor Steve Woodside, an employee of Lowe's Home Improvement. This is his second year as a mentor for *FIRST* LASER 3284.

Wednesday, January 25, 2012

Camdenton school's *FIRST* LASER Team 3284 had their annual kick-off where the *FIRST* Robotics 2012 challenge "Rebound Rumble" was announced.

Team building and brainstorming design concepts were the main agenda last week as the team works with engineer mentors from local business to design, fabricate and market a 125-pound robot in six weeks.

For more information or to become a mentor for the *FIRST* LASER robotics team, contact Sherry Comer at 573-346-9233.
